

SHAHZAIB SHAKEEL

COMPUTER SCIENCE STUDENT

OBJECTIVE

As a Computer Science student with freelance experience in full-stack web development, desktop applications, python and java programming, and database design, I aim to secure an internship in an innovative IT firm. I am eager to apply my skills in a collaborative and real-world setting. My goal is to gain hands-on experience, deepen my technical knowledge, and contribute effectively to the success of innovative projects within the organization.

EXPERIENCE

FREELANCER, FIVERR

2020 – Current

As a freelance Full Stack Web Developer on Fiverr, I have successfully completed numerous projects, showcasing proficiency in a range of technologies. My responsibilities include understanding client requirements, translating them into functional and user-friendly web applications, and designing efficient and innovative solutions.

PROJECTS

FITNESS FULL STACK WEBSITE

Oct 2023 – Present

Working on a user-friendly training website using Django and React.js. Incorporating Python's machine learning for personalized insights. Django will manage data and ensure security.

E-COMMERCE WEB APP

Mar 2023 – July 2023

Designed a mobile product-focused e-commerce website with user-friendly features. Built a smooth experience using React.js and Django, boosting sales for the client.

E-COMMERCE WEB APP

June 2023 – August 2023

Developed an engaging e-commerce platform specializing in pet accessories. Created a user-friendly interface and incorporated essential features to enhance the shopping experience, resulting in increased sales and customer satisfaction.
